WHAT IS CLUB VOLLEYBALL?

Club volleyball is best looked at as a way for your athlete to begin playing competitively. It's a minimum 7-month season with practices at least twice per week with experienced coaches. Teams play in regional and sometimes National tournaments. Families must be ready to invest their time and money in order to play club. Although it is a demanding commitment, your athlete will grow tremendously over the season; it can be the most rewarding to watch them achieve at a high level with teammates and friends that they will build a unique bond with.

DOES MY ATHLETE HAVE TO PLAY CLUB?

It really depends on yours and your athlete's goals. Does your athlete want to play in High School? Does your athlete want to make it to Varsity? Does your athlete want to play in college? If you answered "yes" to all three of these questions, your athlete most definitely should be playing club. Club volleyball is your way to prepare for all of these scenarios. Local competition is deep these days - as in there are a ton of athletes trying to make their school's team who get cut every season. A lot of the reason is because they started playing club too late. The best time to start playing club is at least 13 years old. If 12's are interested in getting competitive and have at least 6-12 months of experience, it can also be a good time for them to start their club journey.

WHY SHOULD WE CHOOSE TO PLAY AT THRIVE?

Thrive was created with three things in mind:

- 1) Quality Training: *If you have experienced our training at The Lab, you can probably already tell that quality training is our highest priority. The same goes for*

our teams at Thrive. Many other club's highest priority is financial gain. They will take on as many teams as possible, sometimes leaving teams with inexperienced coaches. At Thrive, we take the quality of training seriously; therefore, we make it a priority to constantly be providing our coach's with educational sessions and training before leading a team. We have qualifications in place that they must earn before being assigned a team. Unlike other clubs, we would prefer to reduce the number of teams we can take on to ensure we can provide the highest instruction possible.

- 2) Commitment to every player: Whether your athlete is a top player or someone with less experience, if they come through our doors, they will receive the same attention as everybody else. Growing athletes is our job and mission - a hyper focus on one athlete goes outside of our values. We strive to help every player grow and succeed.
- 3) Excellent Player Experience: Another area of lack we noticed in other clubs was the Player Experience - or even the Family's Experience. This can be made up of club culture, team bondings, respectable coach-parent-player relationships, a clean gym, communicating effectively, etc. We understand that this is a commitment not only from the players but from their families as well. We do our best to keep that in mind and provide an excellent experience for all involved.

And now... let's take a deeper dive into the season and what all of this looks like...
